Facts

Intellectual – increase in skills such as problem solving, negotiating, creativity, organizing and planning, retelling familiar stories, application of newly gained knowledge, and mathematics

Physical – increase in skills such as gross and fin motor development, fitness, strength, and coordination

Social – development of skills such as sharing, taking turns, cooperation, negotiation, impulse control, delay gratification, and deal with disappointment

Emotional – increase in self-esteem, pride and accomplishment, feeling of safety and protection, development of sense of self and individuality, and feelings or purpose.

Theatre is a sophisticated expression of a basic human need -- one might call it an instinct -- to mimic, to project stories onto ourselves and others, and to create meaning through narrative and metaphor.

Theatre brings people together because every activity build through collective efforts- participants pass through in such a process for team making, community building, administration and leadership development, self-regulation, behavior guidance etc.
